Full-Stack Development

Shuvo Roy

Software Engineer

Dhaka, Bangladesh

Summary

I'm a passionate developer with 8+ years of experience building web applications that are both stunning and powerful. I wield front-end languages like HTML, CSS, and JavaScript with mastery, while also commanding the back-end to ensure seamless functionality. Vue.js, React.js, and Next.js are my tools of choice, allowing me to craft exceptional user experiences. My analytical mind and problem-solving prowess let me untangle complexities and deliver elegant solutions.

Experience

Operation Nation

Full-stack Developer

September 2022 - Present (2 years 2 months)

Portugal

- ✦ Optimized web applications for maximum speed and scalability, enhancing overall performance.
- ✦ Established a strong online presence by creating visually appealing websites showcasing clients.
- ✦ Performed thorough testing of web applications to identify and fix bugs before product releases
- ✦ Contributed to open-source projects enhancing the reputation of the company within the tech community.
- ✦ Conducted code reviews, promoting best practices within the development team to maintain high-quality output.
- ✦ Mentored junior developers, contributing to their professional growth and skill development.
- ✦ Created powerful Content Management Systems to serve as an interface for clients.
- ✦ Completed full redesigns of existing websites to improve navigation, enhance visuals, and strengthen search engine rankings.

Pulse inc
